DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 11-21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The specification fails to support the "the frequency steps being substantially equal to a bandwidth of the frequency channels... so that each step encompasses two channels" as now recited in claim 1 (lines 14-19).

The specification fails to support the "steps being substantially equal to a bandwidth of the channels, wherein a step of said steps encompasses two channels" now as recited in claim 19.

The specification at page 4, lines 15-24 discloses "... the acquire means can try to acquire a frequency channel 10 at a frequency which is equal to the starting frequency

Art Unit: 2617

plus 6MHz.... And the acquire means are likely to step from a region 24 in a **first frequency channel 10** to a region 24 in **another frequency channel 10**, avoiding the region 22".

The specification does not indicate that any step encompasses two channels. The specification only discloses scanning region 24 in a first frequency channel 10 and then move onto the next region 24 in another frequency channel 10. The specification fails to disclose any step encompasses two channels.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
